

# Insource Management

With **financial hardship, vulnerability and customer demand for support at an all-time high**, recoveriescorp is here to assist you and your customers during these complex times through our insource solution, with your **brand and customers front-of-mind**.

## HOW CAN WE HELP?

Our insource solution is a flexible, cost-effective, first-party offering that provides clients with a **skilled and dedicated workforce** that can **scale up and down at speed**, without any fixed cost commitment. Staff are charged on a **fee per FTE basis** and are stationed either through a work from home model, at your premises, or at our Melbourne or Fiji-based offices, while **utilising your systems**.

To address any current recruitment limitations or restrictions, we have the capability to rapidly stand up a highly skilled team to meet your resourcing requirements (e.g. 30 staff within a 2 week timeframe).

## WHAT CAN WE DO?

## WHAT ARE THE KEY BENEFITS OF INSOURCE?
